Dear Sir:

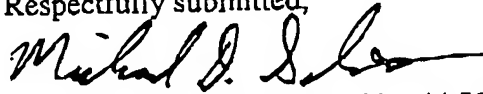

The enclosed Supplemental Declarations correct a deficiency in the Declaration previously filed in this matter. Specifically, a copy of the Declaration filed in the parent case was erroneously filed in this continuation-in-part patent application. While the inventorship of this application is not changed from the parent application, because the present application is a continuation-in-part, a new declaration must be submitted. Therefore, Applicants submit the enclosed Supplemental Declarations to correct this deficiency.

This submission is being filed together with a Petition to Withdraw Patent From Issue and a Request for Continued Examination.
